

Lead-to-Cash Process

SEO Company CRM Workflow

This document outlines a simple, standard lead-to-cash process for an SEO services company. It is designed for consistent lead handling, predictable sales motion, and clear handoffs between sales and delivery.

1) Lead Capture

- Inbound channels (website forms, content downloads, referrals, webinars)
- Outbound sources (target lists, events, partnerships)
- Auto-create Lead in CRM with source, campaign, and service interest

2) Lead Qualification

- Validate fit: company size, industry, budget range, decision-maker role
- Score lead (MQL) and route to sales or nurture if not ready
- Schedule discovery call

3) Discovery & Audit

- Run a basic SEO audit and gather goals, timelines, and KPIs
- Identify target keywords, priority pages, and technical constraints
- Confirm scope and success criteria

4) Solution & Proposal

- Recommend plan (on-page, technical, content, link building)
- Define deliverables, timeline, and reporting cadence
- Generate proposal and estimate

5) Quote & Pricing

- Create Quote in CRM/CPQ with services, term, and pricing
- Apply discounts and approvals as needed
- Send quote for customer approval

6) Negotiation & Approval

- Handle revisions (scope, pricing, timeline)
- Finalize commercial terms and statement of work

- Secure approval and signature

7) Contract & Order

- Convert approved quote to contract
- Collect initial payment or setup fee
- Create onboarding tasks and kickoff meeting

8) Delivery & Execution

- Kickoff: align on goals, access, and dependencies
- Execute SEO plan in sprints
- Track deliverables and outcomes in CRM

9) Reporting & Optimization

- Monthly performance report (rankings, traffic, conversions)
- Review KPIs with client and adjust strategy
- Log results for renewal forecasting

10) Renewal & Expansion

- Start renewal process 60–90 days before term end
- Propose expansions (content, CRO, paid search)
- Update quote and forecast revenue

Key CRM Objects

- Lead (source, score, status)
- Account (company, industry, owner)
- Contact (decision makers, stakeholders)
- Opportunity (stage, amount, close date)
- Quote (services, term, pricing)
- Contract (start/end, status)
- Activity (calls, meetings, tasks)

Tip: Use automation to create follow-up tasks, trigger approvals on discount thresholds, and start renewal workflows automatically.
